## Professional Profile

I'm a hands-on **creative media & Technology** all-rounder who knows how to make **videos**, shoot **photos**, and handle **live sound** while staying efficient. I'm also capable of working competently with **IT Infrastructure and Networking**, so I can fix **IT Issues** or **build workflows** when needed. I've worked in roles where juggling inventory, keeping things organised, and hitting deadlines mattered and I **always deliver** when both **quality** and **time** are important.

## Education & Training

Completed secondary education at **The Derby High School** (2016-2021), achieving **strong GCSE** results across core subjects including English Language, Mathematics, Combined Science, and Design & Technology, highlighted by an above-average **Grade 7 in Computer Science**. with a **practical BTEC** qualification in **Creative Media** with a focus on **print media** including **magazines** and **articles**, further complemented by a second to **Level 3 Diploma in Creative Media** was attained at **Bury College** (2021-2022), with specialised training in **podcast production**, **camera operation**, and advanced **video editing** utilizing industry-standard tools such as **Adobe Premiere Pro** and **Final Cut Pro**. Further professional development in the music industry includes immersive coursework in **music production** and **live sound engineering** at Manchester College, honing skills in **rigging**, **recording**, and **editing** with **Logic Pro**.

## Professional Experience

- **Volunteer, Cats Protection (1 Yr)**: Delivered exemplary **customer service** while managing inventory and optimising stock organisation using **POS** terminals as well as **Tagging** and **labelling** systems. Developed strong **multitasking** capabilities in a **fast-paced** retail environment, ensuring seamless operations and high **customer satisfaction**.
- **Retail Assistant, Subway (5 Mo)**: Applied meticulous **cleaning** and **organisational** standards alongside **food safety** protocols and produce management. **Operated POS** systems efficiently, contributing to overall **operational hygiene** and **product quality**.

- **Specialist Auditor, RGIS UK (5 Mo):** Executed precise **stocktaking** and **warehousing** activities, including handling complex inventory systems involving **cages, totes, rails, pallets, and jacks**. Utilised databases and **barcode scanning** technologies (UPC, ISBN, EAN) to maintain **data integrity** and support **supply chain accuracy**.
- **Warehouse Operative, JD (via J&T) (3 Mo):** Managed efficient **warehouse logistics** through effective **item picking**, organisation, and adherence to strict **safety procedures** and house **cleanliness**. Proficient in operating **Datalogic** and **Zebra** scanners and maintaining an **orderly work environment** to **maximise throughput**.
- **Video Editing, Various Youtube Channels:** I Have **professionally edited** various videos for **small to medium** sized YouTube channels, a comprehensive list of (still public) videos I have edited is linked in a playlist below

## Technical Proficiencies

- **Video & Photo Production:** Proficiency of **Adobe Premiere Pro**, Final Cut Pro, Hitfilm Express, **Photoshop**, Lightroom, and **InDesign** for delivering compelling **multimedia** content with high aesthetic and **technical standards**. Strong Skills in **Camera Operation** including **Manual Exposure** and **composition**.
- **IT & Systems Administration:** Expertise in building, **repairing**, and **maintaining** PCs and laptops across **Windows**, MacOS, and **Linux** platforms. Skilled in **network rigging**, cable management, and **deployment** of web/file servers with **command-line** proficiency.
- **Software Development & Web Technologies:** Proficient in **C#** (WinForms, Unity), Swift/SwiftUI, JavaScript, **HTML**, and Bootstrap, with hands-on experience using **Visual Studio**, Vim, Notepad++, and **Adobe Dreamweaver** for **desktop**, web, and **terminal application** development.
- **Electronics / Electrical Engineering:** Competent in **electrical systems** installation and repair, **soldering** (THT, SMD, PCB reflow), and **component-level troubleshooting** including microcontrollers, ICs, and **logic boards**. Also capable of working with residential and commercial **electrical fixtures and components** like plugs, sockets, switches and light fixtures.

## Key Strengths

- Versatile **technical** skill set bridging **creative media** and **IT infrastructure**.
- Strong **organisational skills** with an eye for **detail** in inventory and stock management.
- Effective communicator and team player able to adapt in diverse environments.
- Passion for continual learning and applying **emerging technologies** to solve **complex problems**.
